The Riviera 2 293 is one of our stand-out split-level designs and is the perfect home to complement an uphill sloping site. Entering on the lower level you are greeted by a generous home theatre, spacious study (or additional bedroom) and internal access to the garage and workshop. Ascending the stairs, find three main bedrooms, main bathroom and laundry — surrounding the additional rumpus room space and alfresco area, perfect for the modern family. Luxury living is redefined on the upper level, with an open-plan kitchen and family area, walk-in pantry, spacious master bedroom with ensuite and walk-in-robe — all complemented by the unfolding deck area.
